

Concrete Hopper

Concrete Hopper - The self-dumping hopper attachment could automatically start to both dump and release as the bumper release contacts the side of a dumpster. When unloading is completed, the hopper is able to go back to original locked and upright position. This particular piece of machinery is even obtainable with a cable which allows operation from the seat of the forklift to be able to have the alternative of manually dumping the hopper. There is a locking chain provided to be able to secure the hopper to the fork truck. This product is constructed with consistent and reliable robotic welds for maximum strength. The lift truck dumping hopper likewise has a blue powder coat finish to be able to maintain durability.
