

Meritor Part

Meritor Parts - Meritor is a leading international dealer which is proudly built on a one hundred year custom of service and quality. They focus on various integrated systems, modules and parts to original machinery manufacturers and the aftermarket for the industrial and transportation sectors.

Meritor values the needs of their customers to guarantee their success while priding itself in the company's unique energy and feels this output of energy to be their aggressive advantage in their worldwide operations. Meritor begins with a philosophy which values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring over 11,200 people, Meritor promotes innovation and collaboration among a team of knowledgeable professionals.

By just hiring future focused people, Meritor strongly believes these top-caliber individuals would be able to rapidly adapt to changing surroundings and exhibit the performance and commitment required to be able to reach results in the competitive materials handling trade. The business empowers their teams to make sound business decisions in order to enhance the overall success of the company. In return, Meritor offers all of their staff various possibilities for personal and professional growth.

The Advanced Engineering team is on the forefront of components and system engineering. This consists of drivelines, axles, suspension and braking systems utilized for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives that represent the whole Asia Pacific region. This team is also responsible for supporting the requirements of their international engineering personnel.

Meritor's dynamic and customer focused Quality team is devoted to ensuring optimum processing at their production plants and aftermarket distribution facilities that are located all around the globe in 19 nations and in 5 different continents.

They have their supplier network that is specifically situated so as to support the development of the business. Each regional team has globally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a data-driven, fact-based approach to decision making in each and every aspect of the business. The DFSS or Design for Six Sigma ensures product reliability in each and every region. The team is also comprised of transactional Green Belts who apply Six Sigma tools to business methods and implement lean techniques.
