

TCM Forklift Part

TCM Forklift Parts - In the global industry of material handling, forklifts play a major part for transporting industrial goods. Primarily innovated as industrial vehicles in the 1930s in the U.S., lift trucks gained recognition after WWII in the 1940s. Becoming a reliable and efficient means to material handling solutions, the need and practicality of these machinery spread internationally.

In 1949, established by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Presently the business is simply called TCM Corporation. Over the years, TCM lift trucks have become an international leader in forklift manufacturing and have built a solid reputation with the business. TCM began constructing forklift manufacturing locations outside of Japan during the 1980s and is presently engaged in forklift manufacturer at three foreign factories in China, the United States and Europe.

TCM proudly makes several models of industrial trucks with more than 50 years of accumulated technology and expertise, making their products recognized and used all around the globe. Characterized by strong initiatives and energetic staff, TCM continues to look toward the future and intends to become a world-class leading business.
