

JLG Forklift Part

JLG Forklift Parts - In the late 1960's John L. Grove, with his wife Cora set out on a cross country journey in their RV. Freshly retired, after spending numerous years working with his brother to build their crane business into an market leader, John had no idea that momentous trip would allow JLG Industries, Inc to emerge. The world leader of mobile aerial work platforms and precision materials handling technologies was the end result of a road trip.

During their journey, John reacquainted himself with former business associates along the way. In combination with these conversations and a noteworthy event; two workers were unfortunately electrocuted on scaffolding when the Groves were passing through the Hoover Dam. John discovered a considerable marketplace for a product that could promptly and securely elevate people in the air to accomplish maintenance and other building functions.

Upon returning from their travels, John established a partnership with two friends and purchased a metal fabricating business in McConnellsburg, Pennsylvania. In 1970, starting operations with a crew of twenty employees, they designed and sold the first JLG aerial work platform. The company incorporates some of the simple design elements of that original lift into current designs.

JLG lift trucks have come a long way since Mr. John L. Grove returned to town from his cross-country road trip and since the first aerial work platform debuted on the market. Nowadays, the business proudly continues to expand itself into various marketplaces globally and develops new products to ensure clients are capable of being more efficient and perform in the workplace within a safer environment.
